## **Woolwich Polytechnic School (URN: 141163)**

### **Question level analysis**

This section allows you to view key stage 2 performance by subject strand, by question and by individual pupils. You can compare each of these with average national performance.

For year 6, the default view is the full data for the whole year cohort.

For year 7, there's no default view, so you have to input UPNs to create a custom view. This custom view can either be the whole year cohort or a particular group of pupils.

This is QLA 2017/2018 data.

## Year 7

This is your year 7 custom view.

For Year 7 pupils, this data is based on the UPNs (unique pupil numbers) entered. It is for information only and does not form part of the data that a school is held to account for.
